ANNUAL REPORT 2024

Soul care stood front and center throughout 2024. Through hospitality, small groups, one-on-one conversations and meals, global workers received care for their souls. Poignant moments of surrender and joyful instances of release came powerfully through presence – God’s with us, and ours with global workers. Because of God’s goodness in it all we stride forward in 2025 with hope, confidence and expectancy.

Thank you for joining us in the care of global workers! The best is yet to come!
